

# Red Wing Base Layers

Flame Resistant Under Wear for Oil and Gas Workers

**Material:** 60% Mod-acrylic 38% Cotton 2%P40 (anti-static)

**Sizes:** XS to 4XL

**Colours:** Black

## Description:

This high-performance, flame retardant and anti static underwear set has a long-sleeve shirt with turtleneck and zip closure. When used in combination with flame-retardant exterior garments it greatly enhances protection levels.

Both garments can be worn either as a summer base layer under protective clothing or as an additional winter layer for extra warmth.

Compliance to EN 533 (EN ISO 14116) & EN 1149-3

## Features:

Elasticized waistband on long john.

1/4 zip on shirt

Knitted cuffs on shirt

Knitted ankles on long john

## Garments Available:

69004—Long Sleeve top with turtleneck zip closure

69008—Long John

Both garments are available separately
